Objective Of The Conference

- We aim to provide an interactive platform on a global scale for the speakers and participants by introducing their research works and the current status of sustainable development.
- Furthermore, we aim to facilitate constructive exchange of information, ideas, research findings, best practices, and lessons identified between the researchers and practitioners.
- We are primarily aiming to create awareness, improve social relationships and build relative strategies to battle environmental concerns through research work and literature.
- We aim to evaluate measures for the improvement and protection of the environment and work collectively for prevention and control of the problem.

About The Conference

This conference will provide a platform for creating awareness regarding the various aspects of microbiology and discuss the major breakthroughs in sustainable development towards various topics in microbiology. Furthermore, it will be an integrative platform for researchers, practitioners, educators and students globally to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of microbiological approaches .
