ZSCT's Thakur Shyamnarayan  
Degree College, Mumbai

**Principal**  
Dr. Sajid Shaikh  
Anjuman Islam Janjira Degree  
College of Science, Raigad

### **Objective Of The Conference**

The conference is devoted to discussing a key objective of the National Conference on Data Science, Machine learning aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all aspects of Engineering Technology and Innovation. Now-a-days the academia and researchers are not only pondering but also experiencing the overwhelming outcomes of interdisciplinary researches. Moreover, it has been ubiquitously encouraged by the governments, research agencies and by the academic institutions. The context of the conference is to foster as well as exaggerate the research culture among academia and industry facilitated by sprinkled out ideas by exchange of the intellect during conduct of the conference. Artificial Intelligence can be broadly divided into two categories: AI based on capability and AI based on functionality. Machine learning: Machine learning is an AI application that automatically learns and improves from previous sets of experiences without the requirement for explicit programming.

### **About the Conference**

With national conferences, you will be able to evaluate your own abilities as well as the potential you have to grow as a professional. There are a lot of things that you may not have known about yourself that you might discover via this course. It is common for conferences to have group discussions and question-and-answer sessions that allow participants to meet and network with colleagues. It also gives them the opportunity to address important concerns and dispel any lingering reservations they may have about the subject matter. In international conferences, you may meet people from all over the world, learn from them, build new relationships, and deepen old ones. In order to foster international scientific collaboration, experts from all over the world meet and connect at scientific conferences. A security conference is an excellent opportunity for professional and personal growth, as well as the opportunity to learn new tools and techniques that can't be learned at home or online. You can go deeper into your subject of interest during a conference because of the targeted nature of the learning environment.
